Corey Johnson

Bachelor's degree in Information Technology
Career targets: Data Science, Junior Developer, Front-End Engineering, and/or Quality Assurance

A highly motivated, adaptable, and positive software engineering graduate seeking a position that will utilize professional and technical skills developed through education and work experience. A detail oriented, professional with a positive, forward-thinking, and abstract approach to solving customer and company needs. Proficient in an array of scripting languages and skilled at writing well-designed, testable and efficient code. I am applying for the Junior Developer/Entree level position at Nokia!
